CAUTION . . .

Pay no money in advance to itinerant Directory canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

HENDERSON'S

Metropolitan Winnipeg

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1962

COPYRIGHT 1962, BY HENDERSON DIRECTORIES LTD. WINNIPEG

In the following list the avenues and streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. The Profession or business of individuals or firms is given only at their respective places of business; to find occupations of others refer to Alphabetical List of Names.

The symbol ◎ following a householders name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The symbol Δ preceding the names denotes houses having telephones.

(This section includes some listings reading "Occupied" or "Vacant". In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First two personal calls were made by an enumerator; next, a post card was mailed and the telephone used when possible.)

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.

METHOD OF NUMBERING

Avenues generally run East and West and are numbered under 200 East of Main Street and over 200 West of Main. South of the Assiniboine River, Osborne Street is the base.

Streets generally run North and South and are numbered northwards from Notre Dame and both northwards and southwards from the Assiniboine River.
Odd Numbers generally on the north side of Avenues and east side of Streets.
Even Numbers are generally on the south side of Avenues and west side of Streets.

Postal Zone Numbers, when allocated, are shown at the start of each avenue or street. When an avenue or street runs into an adjacent zone the New Zone Number is indicated at the appropriate intersection.
